MONEY, STOCKS AND GRAIN

Feverish and Unsettled Tone to Business in Wall Street Yesterday.

A Recovery at the Close Cut Down the Losses to a Great Extent-At Indianapolis Receipts of Cereals Not Up to Grade.

THE BOND MARKET.

Railway Issues Are Weaker, on Sales \$961,000

At New York, vesterday, money on call was more active, ranging from 4 to 6 per cent., the last loan being made at 4. closing offered at 4.

Prime mercantile paper, 642@8 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.874 @4.87% for sixty days, and \$4.89% @4.89% for demand.

The total sales of stocks were 315,300 shares, including the following: Atchison, 6,100; Burlington & Quincy, 27,200; Chesapeake & Ohio, 3,900; Cotton Oil, 5,700; Chicago Gas, 14.200; Delaware, Lackawanna & Western, 8,100; Distilling, 8,900; Erie, 5,800; General Electric, 10,000; Lake Shore, 8,600; Manhattan 4,100; Missonri Pacific, 37,900; National Lead, 9,200; National Cordage, 10,200; New England, 11,500; Northwestern, 3,500; Northern Pacific preferred, 8,600; Reading, 7,900; Rock Island, 5,900; St. Paul, 23,500; Sugar, 27,600; Western Union, 23 900.

The stock speculation was feverish and unsettled again yesterday from the same causes which have operated against the market for a week past. The uncertainty In regard to the treasury policy, the strength of sterling exchange, the talk of heavy gold engagements and the signs of increased stringency in money all tended to unsettle the views of holders of stocks. At the same time the bears were emboldened to make more vigorous attacks on such stocks as they knew to be unprotected. Taken altogether the losses were by no means heavy. Just previous to the close there was a recovery of the to 1 se from the lowest on reports, which proved to be well founded, that Secretary Carlisle would come out with an official statement in regard to his policy. It is to be said that in a majority of instances the net declines for the day were less than a point. This is explained by the fact that outsiders attracted by the low prices were buyers on all the reactions. The market closed steadier in tone.

Railway bonds were weaker. Sales, \$961,000. Toledo, St. Lonis & Kansas City firsts declined 31s, to 78% @791. Louisville & Nashville fives rose 24, to 1064. Government bonds were lower and States were dull. Closing quotations were: .

LOCAL GLAIN AND PRODUCE. Good Demand for Corn and Oats, but Re-

ceipts Are Poor. In the local grain market there is a good demand for corn and cats, but a large per cent. of the arrivals of corn are wet and low grade. In fact, the market is overstocked with an inferior quality. Oats are in fair request, but bids on wheat are few.

Trade thus far this week has been off. rainy weather and high winds making the transacting of business rather slow. Prices yesterday carried a steady tone. The firmness of the provision market is a surprise, as the receipts of hogs are increasing. In the seed market it is uniet, prices ruling easy and unchanged. The hide market is active, and why prices are not higher under the conditions is a matter of comment. The tallow market, which went wild during the winter, has dropped back into about the usual rut. The dry-goods men are not boasting much just now of their business; the weather is against them. Grocers are doing fairly well. The weakening in coffees has checked trade in that line somewhat, as retail merchants look for lower prices. Sugars are firm and really have an d vancing tendency.

MAY WHEAT DECLINED 30

The Famous Future That Squeezed Pardridge at 90c Touched 71 1-2c.

Armour Largely Responsible for the Last S.ump, Flooding the Chicago Market with Great Batches, but Buying in Later.

TRADING AT CHICAGO.

Bad Reports from the Northwest Are Alarm-

ing the Bears. CHICAGO, April 20 .- May broke 3e today and July is no longer the under dog. Armour as a seller caused the whirligig. and though he bought a quarter of a million bushels of May later on, the famous near-by month was at a cent discount from July at the close, the market leaving off strong for July at about 4c gain for the day, while May was firm at %c below the price it closed at yesterday. The very poor prospect for the next winter wheat crep does not improve, and now alarm begins to spread into that great stronghold of the bears, the far-stretching spring-wheat regions of the Northwest. Reports from there were that the seeding is already ten days behind. Corn was a trifle steadier, but no material change occurred in values. The principal feature was the selling of May and buying of July at 1% @2c difference, about the only demand for May being from the shorts.

Provisions were strong throughout except at intervals, last prices being the highest reached. The firmness was due to packers reporting an excellent and increasing demand, whilelhog receipts fell below the estimate, and expectations for to-morrow are small. The gains since yesterday amount to from 2714c to 80c, in pork; from .10e to .15e in lard.

Estimated receipts for to-morrow are: Wheat, 265 cars; corn, 170 cars; oats 210 cars; hogs, 14,000. Freights were dull at 13 @140 for wheat and 140 for corn to Son's, 54c; Mesonville, 54c; Gorner, 54c. Buttalo. The leading futures ranged as Tickings-Amoskeag ACA, 124c; Cones- follows;

Dry Goods, NEW YORK, April 20.—Stormy weather was against much trade in dry goods on the spot, though there were more buyers around who had been attracted to the large auction sale of indigo blue prints held to-day. The situation, however, was unchanged, except that the result of the auction sale referred to was felt to be beneficial to the tone of the market. About 1,380 cases of Algonquin indigo prints were offered and guaranteed by the auctioneers to be perfect every way, all defective pieces having been withdrawn. It was not expected that even under those circomstances the goods would bring over 5c a

yard, but the first case sold for 54c, and shortly after the price advanced to 54c, then to 54c, and single case lots sold at 57sc. A prominent printer was the principal buyer. Whatever significance was attached to this fact, the result was beneficial to the market, as it was surprising. Clothiers, as well as jobbers, were bidders at the sale. Beyond this movement there was nothing of special interest at either first or sec-

To properly plant a peach tree all medi-350.00 um and large-sized trees should have the entire top cut off, leaving only a stick fif-500.00 teen to eighteen inches above the roots, which should have all broken or bruised pieces cut off. When thus trimmed plant in good mellow soil, about two inch-250.00 es deeper than it had been when growing in nursery rows, 500.00

When growth begins sprouts will come out all along up the body. All of these should be rubbed off, except three or four near the top that must be allowed to grow to form the main branches of the future tree. By proper selection of what sproute to reserve, the trees may be formed of any desired form of head. These new branches will grow from three to five feet the first season and so make a much stronger and better-formed tree than could have been possible had not the top been all cut away when planted. Don't fail to cut off the entire top when planting.
